

# Poster Dimensions

Please keep posters within 90cm (wide) and (120cm high). This is the space available for each poster on velcro friendly felt boards. Please use simple, large and easy to read font. Think about how it will be read.

Structure the material with sections as per your abstract. Do not crowd the poster with too much text, so be as concise and accurate as possible.

Use simple figures (bar graphs where possible). Do not use colours that are difficult to look at or distract from content.

**Take pride in producing excellent, prize winning work!**
