OVERVIEW
This one day program is designed to increase knowledge of the principles of carbohydrate counting from exchanges to advanced carbohydrate counting in grams for different insulin regimes and pump therapy.

The program will provide Dietitians and Diabetes Educators with an opportunity to enhance their current knowledge and confidence to provide management and referral for clients with type 2 diabetes requiring insulin, type 1 diabetes and gestational diabetes.

TOPICS WILL INCLUDE:
> Process for carbohydrate counting
> Carbohydrate counting using exchanges
> Carbohydrate counting in grams for flexible insulin therapy and insulin pumps
> Using food labels, online food databases, weighing and measuring foods
> Calculation of carbohydrate in meals and recipes, and when eating out
THE BAKER IDI TRAINING TEAM

Baker IDI’s multi-disciplinary team includes diabetes specialists, credentialed diabetes educators and accredited practising dietitians.

Our highly skilled presenters aim to make all learning experiences practical and relevant to assist you to provide better care for people with diabetes.
